

GENERAL CHARACTERISTICS:

- Robust construction made of stainless steel AISI-304.
- Machine constructed according to the European Directive 2006/42/CE.
- Central "T" shovel arm with forward and reverse rotation, suitable to knead all kind of products, and blend perfectly the ingredients.
- Suitable to process until 70% of its capacity in litres (depending on the product).
- Geared motor transmission.
- Silent operation.
- Without maintenance.
- Hydraulically tilting container, for easy unloading and cleaning.
- Equipped with stainless steel cover, with double safety system.

OPTIONS:

- Platform to unload the product in 200 liter cutter carts.
- Container with a false bottom.
- Methacrylate or grille cover.

TECHNICAL DATA:

Hydraulic motor power	0,75 kw
Shovel motor power	2,2 kw
Shovel speed	30 r.p.m.
Container capacity	250 litros
Dimensions (mm)	1290x620x1270
Weight	680 kg
