

**GENERAL CHARACTERISTICS:**

- Heavy duty construction made of AISI-304 stainless steel.
- Machine made in conformity with European Directive 2006/42/CE.
- Mixer with central arm paddle type "T" of double rotation. Suitable for mixing all kinds of products and blend perfectly the ingredients.
- Suitable to produce until 70% of its capacity in liters (depending on product type).
- Transmission by gear motor.
- Removable paddles for quick and easy maintenance.
- Hydraulically tilting container for easy unloading and cleaning.
- Equipped with stainless steel grille manual lid with double safety device also for hydraulic loader.
- IP65 electrical panel. 24V operation.
- Silent working.
- Without maintenance.

## OPTIONS:

- Speed variator (from 12 to 65 r.p.m.)
- Hydraulic cover

## TECHNICAL DATA:

Hydraulic motor power	0,75 kw
Shovel motor power	4,4 kw
Shovels speed	30 r.p.m.
Container capacity	300 litres
Dimensions (mm)	2650x1055x1430
Weight	780 kg
